

The church is joined together as one community.

Did you know that the very first Christians did not have a church building? Instead, they met together in their homes! Even though we have church buildings now, it is important to remember that God's church is made up of people. Use your stickers to decorate the people of God that make up the church.

Memory Verse:

"In him you are also being built together into a dwelling place for God by the Spirit." Ephesians 2:22
