

Sunday School in Light of COVID-19

Our curriculum providers, D6 from Randall House, have made available all the devotionals for this quarter so families can continue studying the Bible together. The home has always been God's main small group and worship center. It's a blessing to be able to lead our children in getting to know Him and His word.

The links for the family or individual devotions, *Home Connection* and the weekly *Splink* are easily available at **The D6 Family App** (available for Apple and Android). I encourage you to download it or star this email for easy access to content, since I've posted below the links for materials to each grade level, as well as info from my former email. ✨
